Scouting is for Girls and Boys!

The aim of Scouting is to encourage the physical, intellectual, social, emotional and spiritual development of young people so that they take a constructive place in society as responsible citizens, and as a member of their local, national and international communities.

This is undertaken in small teams ("patrols"), under the watchful eye of trained volunteer leaders, with the youth gradually taking on more leadership as they learn the skill of leadership using the proven Scout method. And all done in the context of fun, often outdoor adventurous activities.

St Joseph`s Scouts, is a strong local group of the world's largest youth movement with 50 million Scouts worldwide and provides Scout training, new friends and life building experiences to girls and boy from age 5 to 26 and youth are welcome to join year round.

St Joseph`s Scouts are located in Allan Reserve on the corner of Bromfield Street and Botanic Road. Our Carpark entry is on Bromfield Street immediately before the tennis courts.

We accept membership inquiries for leaders, and youth all year round! You can join at any time!
